

Rajpur-Sonarpur Municipality

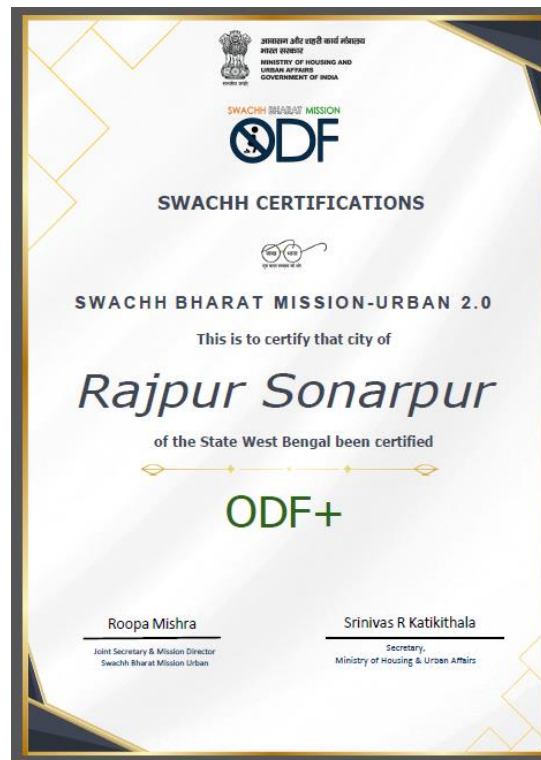

September- 2025

www.rajpursonarpurmunicipality.in

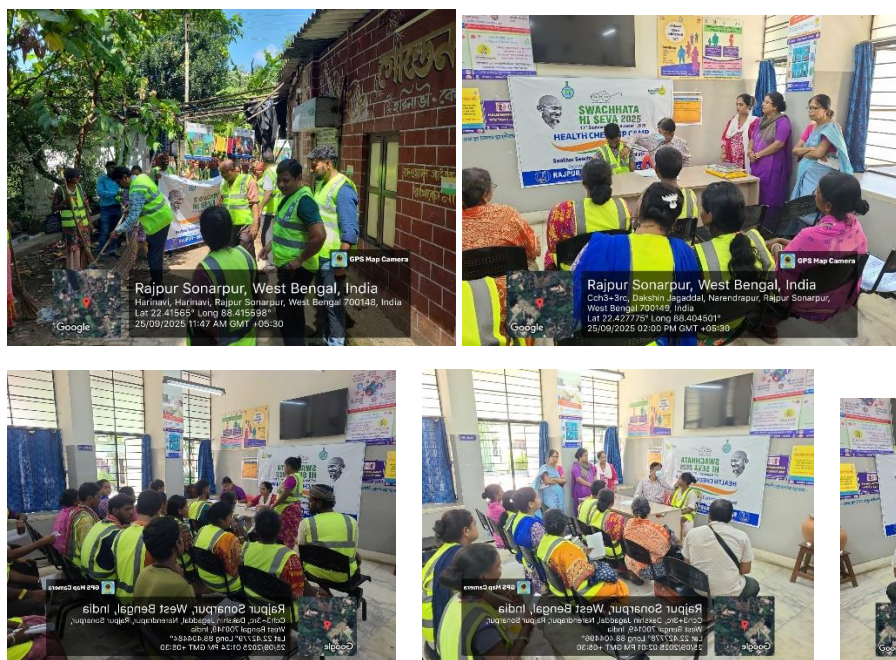

SBM 2.0

Rajpur Sonarpur Municipality receives ODF+ certificate from Central Govt. as per our performance verification by QCI the third-party agency appointed by Central Govt. We highly appreciate the guidance of SUDA, Govt of West Bengal for their continues support .

“Swachhata Hi Seva”

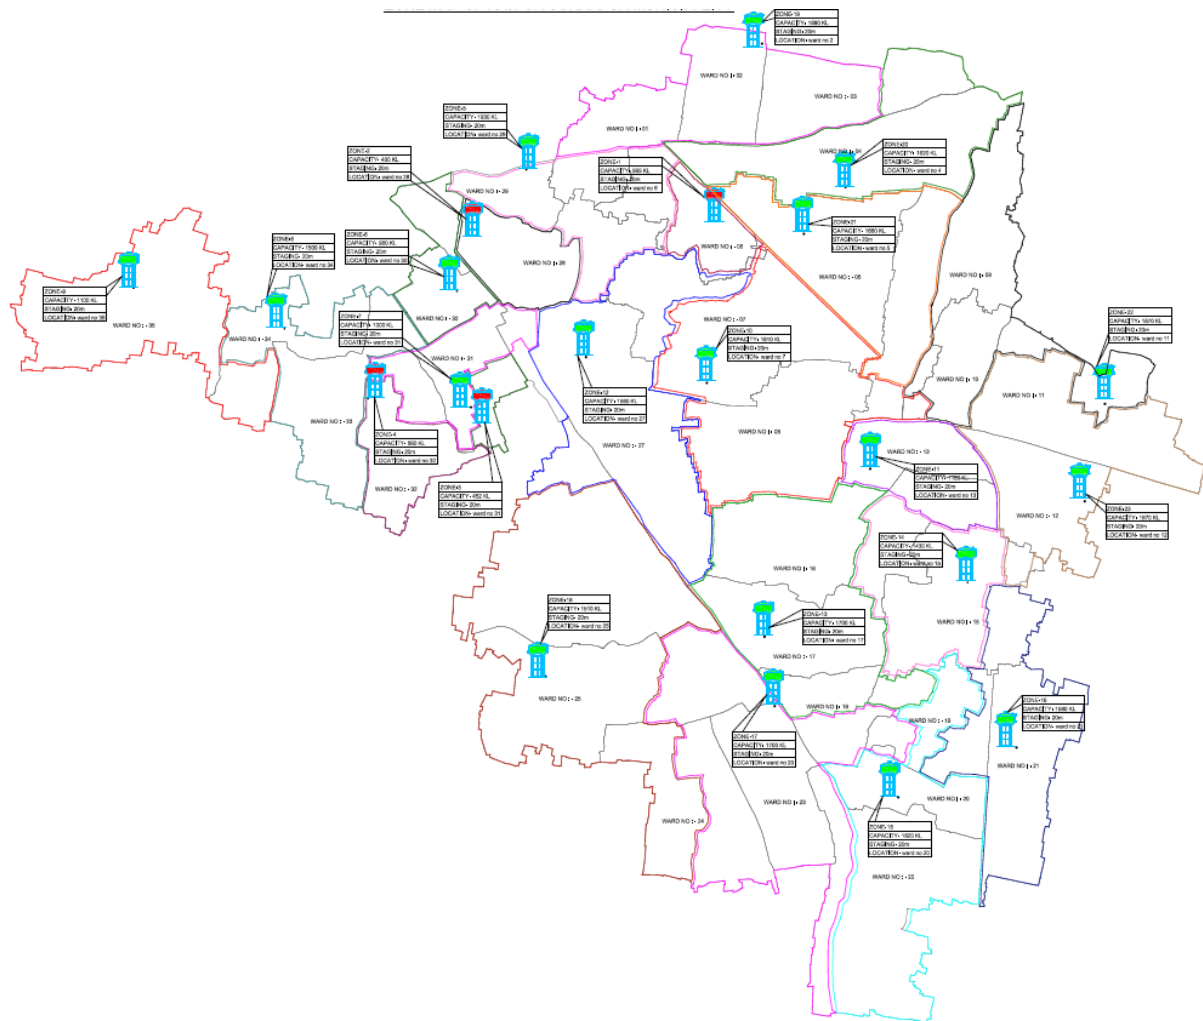

The municipality is committed to keeping our city exceptionally clean. Therefore, different programs are taken up at different times. Such as special cleanliness drive at different locations. And The Health checkup camp for conservancy workers .

AMRUT 2.0

Water Supply :

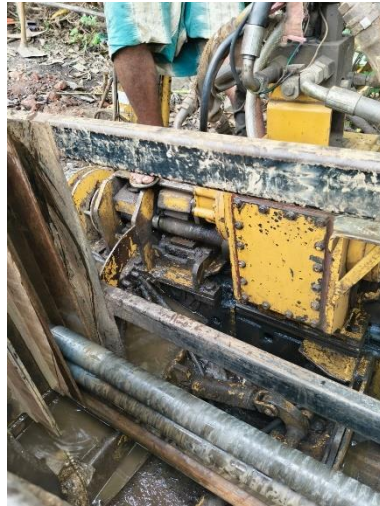

The DPR for **Clear Water Distribution network with house connections and metering system** already been approved in SLTC. And subsequently we have got the approval for implementation of the project. Value of work is Rs.492.99 crore and the work has been divided into 23 zones . In this whole work Total Pipe Length is 1445.838 KM. in which Re-use of Existing Pipe Length=209.925 KM, Proposed New Pipe Length=1235.913 KM(a. HDPE Pipe Length = 1109.265KM, b. PVC - O Pipe Length = 47.979 KM, c. DI-K7 Pipe Length = 78.669 KM).

Zone map of Project area (ward 1-35)

Distribution Network of all the 23 Zones are in full swing with the cooperation of ward councillors and other citizens of respective wards. 95% of distribution work has been completed and the work of House Service connection will start from October 2025.

It was almost impossible to work in the pouring rain, but the whole team worked very hard to accomplished the work .

👉 Work of Distribution Network lines are at different Zones

Keeping in mind the inconvenience to the common people, we have cut the main road and installed the pipes at night time with the help of Traffic control Sonarpur & Narendrapur.

Supervision of work at night 📱

Currently, after the trial run of the Intke Jetty, the trial run and washout work of the Distribution Main and the Raining Main are underway. And along with this, the trial run of Water Treatment Plant and water purification work is also underway. The Washout work of 19 ESR and 3 UGR

constructed under AMRUT Water Supply Project Ph-I & Ph-II , work is underway and has been completed in some places.

We are very optimistic that we will be able to provide purified drinking water to all citizens within the next year.
